

# 29TH ANNUAL CANADIAN STUDIES SEMINAR

## Designing the 100-year Society: Prospects for Young Women and Men in Ageing Japan and Canada

### SEMINAR FOCUS

This seminar asks students to think critically about their future prospects in societies where growing numbers of persons will live to 100+ years.

Groups of students will present short “**briefings**” on key issues and options to a senior Canadian diplomat (Prof. Mackenzie Clugston) prior to his meeting with Japanese Prime Minister Abe. What are the key issues? What are the main options? What can the governments of Canada and Japan do now to ensure that young women and men enjoy meaningful life opportunities in a rapidly changing future?
