

KGU Online Program

Student Voices

"The design of Japanese lessons is very good. It allows me to express my own view in Japanese." (China)

"The professors have been incredibly cooperative in helping all students keep up with the course despite the time difference." (Italy)

"I have learnt a lot more than I would have at my home university." (Australia)

"The class sizes are small meaning that students receive a lot of support." (U.K.)

What I liked about the program:

I have become more confident to speak Japanese!

During the lessons, we had many opportunities to speak Japanese with teachers, classmates, and KGU volunteer students.

The teachers are very nice and professional. Even though my Japanese was poor at the beginning, they were very patient with me and help me improve a lot.

Advice for future students:

Even though this is an online program, you will have many chances to interact with Japanese people and learn about the language as well as the culture.

Don't hesitate to try something new!
